AS9100 CERTIFICATION GRANTED TO WAKEFIELD-VETTE RALEIGH

(Raleigh, NC) – (August 26, 2020) – (Wakefield-Vette), a leading manufacturer of complete thermal management solutions, is pleased to announce its certification to AS9100 Quality Management System (QMS) for Aviation, Space and Defense organizations. Certification to this quality standard positions Wakefield-Vette's Raleigh facility to expand its growth in an elite class of supply chain manufacturers that are registered to this rigorous Aerospace and Defense standard.

“Wakefield-Vette's certification of AS9100 validates our integrity in our processes and employee commitment to excellence,” said Robert Kennedy, President, Wakefield-Vette. “Our emergent growth in designing and manufacturing thermal solutions in the Military and Aerospace space will greatly benefit from these thorough requirements put in place.”

Wakefield Vette's Raleigh Facility underwent an extensive audit and qualification process of its quality and management systems. This certification is the culmination of a multi-year effort to lay the appropriate groundwork for this level of quality system. This ensures that Wakefield- Vette's strategic customers will continue to receive high complexity products and design support.
