Ultra Thin Heat Pipes

Part Number #120231

Wakefield- Vette’s high performance heat pipes are used in many applications in various industries. Some applications include: Automotive, Consumer Electronics, LED Lighting, Medical, High Power Semi Conductors, Aerospace, & Defense.

In these applications the heat pipe is used to transfer heat with minima temperature difference from one area to another or across a specific surface material.

Material: Copper
Wick Structure: Powder Sintered Copper
Light Weight
Versatile with high thermal performance
